

Staveley CE Primary School – Year 6

Home learning for week beginning 28th June

Maths	English	Science and Topic Work
<p><u>DAILY LESSONS</u></p> <p>Keep up your Times Tables Rockstars – in class, we are rocking this too!</p> <p>The Hamilton Trust will now be our online maths teacher. Follow this link and scroll down to Year 6 maths – each week has 5 lessons/activities for you to enjoy throughout the week https://www.hamilton-trust.org.uk/blog/learning-home-packs/</p>	<p>This week's writing is to create a back story about a favourite book or movie character. It needs to be a character, about whose childhood, you have no information. In class, we have chosen 'Edna' from the Incredibles – although Buck from Ice Age 3 was also popular.</p> <p>Start by identifying what kind of character they have – this needs to be quite layered and in depth. Then, work backwards, using your own life experience and imagination, to create a childhood that could have created this grown up.</p> <p>SPAG:</p> <p>https://www.tes.com/teaching-resources/primary-national-tests/ks2-sats/spag</p> <p>All sorts of everything – this will be an ongoing resource. I suggest 1-3 activities per week.</p>	<p>We are now sharing History and Science, as Upper Key Stage 2, with Class 4.</p> <p>Please follow this link to the websites' home learning page/Class 4 to access details – start on Week 11</p> <p>http://www.staveley.cumbria.sch.uk/home-learning-class-4/</p> <p>Ofcourse, I am also emailing you the relevant learning documents also.</p>
